We are pleased to inform you about the 7th International Symposium on Mining and Environmental Protection. The 7th International Symposium on Mining and Environmental Protection will be held on September 2019, in Vrdnik, (http://www.thermal-vrdnik.com/banja/), organized by the University of Belgrade, Faculty of Mining and Geology in Belgrade - Center for Environmental Engineering.

Previous conferences were very successful and scientists and companies from many countries gathered to exchange information and research results. The objective of this Conference is to bring together engineers, scientists and managers working in the mining industry, research organizations and government organizations, on development and application of best practice in the mining industry in the respect of environment protection.
IMPORTANT DEADLINES

**June 1**: Sending application form and abstract (by post or e-mail)

**September 1**: Receipt of full papers

**September 10**: Conference Program

JOURNALS

This year, selected works from the Conference MEP 2019 will be published in Journals:

**Underground Mining Engineering** (YU ISSN: 0354-2904), University of Belgrade, FMG Belgrade [http://ume.rgf.bg.ac.rs/index.php/ume](http://ume.rgf.bg.ac.rs/index.php/ume)

CONFERENCE FEE

Conference fee is **150 EUR** for participants. Conference fee includes costs to the organizational and technical parts of the conference, book of abstracts, book of abstracts in electronic form on CD, conference materials, refreshment during the discussion in sessions, excursion and gala dinner.

ACCOMMODATION

Accommodation are not included in the conference fee and it must be ordered separately. By reason of the great interest please book your accommodation at the hotel reception, before the **September 1**: 

**HOTEL TERMAL** – Vrdnik 
Phone: +381 22 465819; Mobile: +381 69 755727; E-mail: termalrec@ptt.rs

TOPICS

- Surface mining of mineral deposits
- Underground mining of mineral deposits
- The exploitation of oil and gas
- Environmental protection in mining
- Sustainable development in the mining industry
- Ecological aspects of exploitation energy resources
- Mine closure
- Remote Sensing
- Movement and Deformational Analysis
- Clean coal technologies
- Clean Energy
- BAT technologies in mining
- Air pollution
- Soil contamination, remediation and reclamation
- Mining water and waste water management
- Assessment of Environmental Impact
- Life Cycle Assessment
- Systems of Environmental Protection
- Legislation in environmental protection
- Public Health and Environment
- Natural Renewable Resources
- Mining Geology
- Biomass
- Biomining
